

White Rock Pedestrian Grade Crossings

Why:

- Improve safety and accessibility for all grade crossing users including residents and visitors
- Improve safety for railway operations, deter trespassing on railway tracks
- Comply with Transport Canada regulation and standards
- Support the whistle cessation application

How:

- Install automatic gates with warning signals and bells
- Improve pedestrian crossing approaches to be more accessible by persons using assistive devices
- Upgrade signage
- Install emergency exit gate for pedestrians
- Construct wheelchair ramps, upgrade crossing surfaces to be smooth and continuous
- Install fencing to prevent trespassing

When:

- Public Consultation: June 2017
- Detail Design: May 2017 to August 2017
- Construction: September 2017 to June 2018 (for Finlay, Balsam, White Rock Pier & Bay crossings)
