## SUMMER 2016 WATER RESTRICTIONS

Outdoor watering restrictions are in effect every year from June 1 to September 30.

The City supports and promotes sustainable water practices in the protection and conservation of our water resources. Watering restrictions also assists to stabilize water consumption and maintain consistent water pressure during the period of high demand in the months of summer.

### Did you know?

One hour of lawn sprinkling uses as much water as 25 toilet flushes, 5 loads of laundry and 5 dishwasher loads combined? Please keep in mind, your lawn only needs approximately one inch of water (about one hour of sprinkling) per week to stay healthy.
