

# Johnston Road Redesign

## Project Need:

- Redesign Johnston Road to improve access, safety, and enjoyment of the downtown core and create a distinct gateway into White Rock

## Project Benefits:

- Improved safety for vehicles, pedestrians, cyclists, and transit
- Improved streetscape, including wide sidewalks, distinct lighting, and enhanced planting
- Repair of sewers and connections

## Progress to date:

- February 2014 - Review of existing reports, City Planning & Engineering standards, and traffic data
- March 2014 - Field review and observations on Johnston Road
- April 2014 - Review of existing sidewalk condition and preliminary design for sidewalk improvements
- June 2014 - Initial Public Consultation

## Work to be completed:

- Completion of Public Consultation
- Completion of Detailed Design
- Public Tender
- Phase 1 Construction from Russell Avenue to North Bluff Road
- Phase 2 Construction from Thrift Avenue to Russell Avenue
