

A long pier with arching streetlights extending into the ocean at dusk. The pier is illuminated by a series of warm, glowing lights that create a rhythmic pattern of arches. The sky is a deep, dark blue, and the water in the foreground is dark with some white foam from waves. The overall mood is serene and romantic.

WHITE ROCK

My City by the Sea!

DRAFT RE-VEGETATION AND MAINTENANCE PLAN FOR MARINE DRIVE HILLSIDE

Objectives

- Eliminate invasive species
- Low maintenance
- Phase over three to five years
- Monitor progress each year
- Economically feasible
- Increase slope stability
- Achieve BNSF approval

SLOPE CONDITIONS

PLANTING ZONES

Nootka rose
Rosa nutkana

Salal
Gaultheria shallon

Snowberry
Symphoricarpos albus

Oceanspray
Holodiscus discolor

Thimbleberry
Rubus parviflorus
