PUBLIC INFORMATION MEETING 14937 THRIFT AVENUE

Hosted by Applicant

The City of White Rock has received an application to change the OCP designation on the property located at 14937 Thrift Avenue from 'Multi-Unit Residential (Low Density)' to 'Multi-Unit Residential (Medium Density)', and rezone the property from 'RS-1 One Unit Residential Zone' to 'CD-53 Comprehensive Development Zone'. If approved, this will allow a 7-storey, 11-unit residential development with two levels of underground parking. A Major Development Permit is required for the form and character of the development.

City staff will be in attendance to monitor the meeting and to report back to Council on the meeting.

Date: Wednesday, September 9, 2015
Time: 5:30 p.m. to 7:00 p.m.
Location: Centennial Arena, 14600 North Bluff Road, White Rock

PUBLIC INFORMATION MEETING 15912 RUSSELL AVENUE

Hosted by Applicant

The City of White Rock has received an application to rezone the property located at 15912 Russell Avenue from 'RS-1 One Unit Residential Zone' to 'RS-4 One Unit (12.1m Lot Width) Residential Zone' to allow a two-lot subdivision and the construction of two new homes. City staff will be in attendance to monitor the meeting and to report back to Council on the meeting.

Date: Wednesday, September 16, 2015
Time: 5:30 p.m. to 6:30 p.m.
Location: White Rock Library, 15342 Buena Vista Avenue, White Rock

AUTUMN TIPS TO HELP STORM WATER DRAIN

After last weekend, we've definitely changed seasons! Here are a few tips that you can do around your property to help storm water drain this fall.

- Clean your foundation drains so that the rain water collected from your house and property can be directed out to the City storm sewer. These drains are pipes and can become blocked by such things as leaves, pine needles, silt, dirt or roots.
- Clear street gutters and catch basins of leaves, garbage, other debris, or snow to help prevent flooding in your neighbourhood.
- If you have an open ditch along your property, it is important to check that the ditch and culverts are clear to ensure proper drainage of storm water.
- If your down pipes from your house are connected to a hole near the house foundation, your down pipes are likely connected to your perimeter drains. These down pipes take rainfall from your roof gutters to the perimeter drains around your house foundation. This may cause excessive flow to your foundation drains and result in flooding of your house. To prevent this, direct your home's down pipes onto splash pads. This allows rainfall from your roof to soak into your lawn and garden.

SIGN UP TODAY! UPCOMING EVENTS IN THE WHITE ROCK OCP PROCESS

Neighbourhood Workshop - Imagine White Rock 2045

Date: Thursday, September 17, 2015
Time: 5:00 – 7:00 p.m.
Location: White Rock Community Centre
Format: Workshop, a smaller set of groups to discuss one of four areas of the City - East, West, City Core or Waterfront.

Join the community for an interactive Neighbourhood Workshop. Sign up in advance to an area of interest - East, West, Waterfront or City Core – and participate in a round table discussion on the strengths, issues and themes in each neighbourhood. The workshop will allow community members to roll up their sleeves and put their knowledge and aspirations into action.

Restricted number of spaces available! Please register your interest by emailing imagine@whiterockcity.ca with your name, address and area of interest. Spots are reserved for each area.

We thank everyone for their interest. Due to limited seating, we may not be able to accommodate everyone at this event.

Vision and Goals Open House - Imagine White Rock 2045

Date: Thursday, October 8, 2015
Time: 5:00 – 7:00 p.m.
Location: White Rock Centennial Leisure Centre Hall
Format: Open House, drop in at any time between the times listed above

Continue the conversation! We want to hear from you on your thoughts on the draft vision and goal statements. Find out on our website, www.whiterockcity.ca/imaginewhiterock
