Development Cost Charges Open House

Date: Thursday October 29, 2015

Time: 6:00 p.m. – 8:00 p.m.

Location: Hall A, White Rock Community Centre

Format: Open House, drop in

Join the City's Engineering and Operations team and City consultants as they speak on the proposed update of the City's Development Cost Charges (DCCs).

DCCs are monies collected from land developers, by a municipality, to offset some of the infrastructure expenditures incurred to service the needs of new development. Imposed by bylaw, the charges are intended to finance City's capital projects related to roads, drainage, sewers, water and parkland.

The DCC program provides the City with an opportunity to identify growth-related projects and proportion the costs accordingly to the development community.

More details about the cost charges, the technical equations and analysis will be discussed at this Open House.
