

NOTICE OF PIER CLOSURE MARCH 18 TO 26

In order to improve public safety and ensure the continued use of the pier, construction upgrades to repair and replace damaged piles and cross-braces will take place from March 18 to May 17, 2013 with intermittent pier closures.

From March 18 to 26 the pier will be closed to the public while crews conduct pile driving through the use of a large barge. Due to the barge location and the nature of the work, this phase of construction is dependent on high tides and will have noise associated with it.

We recognize the inconvenience associated with the pier upgrade and greatly appreciate your patience during this time.
