Officer/Crew Notes

Notes: Captain Fulton

WRE1 was dispatched to respond to an MVA with injuries. Once on scene command was a established and a size up performed. There were two vehicles involved, along with two patients. We cordoned off the area to protect responders. We then tended to the patients. One was out of her vehicle complaining of slight neck and back pain. the other patient was still in his vehicle complaining of neck and back pain. We used spinal immobilization on him. We were able to get him out of the vehicle. Ambulance and RCMP arrived shortly there after. We assisted with the patients and the scene.

While waiting for the tow trucks, we had the POC's respond in the Mocom to relieve E1
