How To Measure Your Tree:

1. Measure diameter at 1.4 m (4'5") above grade* (**Diameter at breast height, DBH**)
2. With a multi-stem tree, measure diameter of the three largest stems then add them together.

**If you do not have a diameter tape, you can determine the diameter of a tree by measuring the circumference of a tree trunk, at 1.4m above ground level, with a regular measuring tape (like measuring your waist size). The circumference can then be divided by 3.1416 to obtain the diameter.*

CONSENT:

Applicant:

In consideration of the issuance of a Tree Management Permit as a result of this application, the applicant agrees to indemnify and save harmless the City, its elected and appointed officials, officers, employees, servants and agents from and against all claims, losses damages, costs, expenses, including investigatory and legal expenses and other actions caused by or attributable to any willful or negligent act, omission, delay, or allegations thereof on the part of the applicant or owner and their employees, sub-contractors or agents related in any way to the Tree Management Permit. The applicant also agrees that this provision shall survive the termination of the Tree Management Permit. As the applicant, I am aware of, understand and intend to comply with all the regulations and requirements of the "White Rock Tree Protection Bylaw, 2021, No. 2407" and certify that all information provided with this application is correct and true. I further understand that a non-refundable application fee is payable at time of application.
