

White Rock RCMP - Traffic Enforcement Contact Locations - June 2021

Data qualifiers: Locations are based on the nearest block or intersection as indicated by the officer on the violation ticket, notice & order, or other enforcement document. Traffic stops conducted where no document was served to the driver are not included in the total. For privacy, only basic data has been provided regarding the reason for the police-motorist interaction. In some cases, the reason indicated on the served document may not be the same as the reason for initiating the stop (i.e. a driver is stopped for improper lane change but issued a ticket for a different discovered offence such as failing to display 'N' sign).
