

POLICY TITLE: CENTRE LINES, LANE LINES, CROSSWALKS AND STOP BARS – INSPECTION AND MAINTENANCE

POLICY NUMBER: OPERATIONS / ENG. - 618

<i>Date of Council Adoption: June 15, 2015</i>	<i>Date of Last Amendment: December 2, 2019</i>
<i>Council Resolution Number: 2015-214; 2019-567</i>	
<i>Originating Department: Engineering and Municipal Operations</i>	<i>Date last reviewed by the Governance and Legislation Committee: November 18, 2019</i>

Policy:

That for annual budget preparations purposes, the Manager, Municipal Operations or designee(s) will plan to inspect centre lines, lane lines, crosswalks and stop bars every two years. A list of all lines requiring repainting will be compiled and provided to the Operations Manager for review, planning and budgeting.

Provided the budget and resources are available the following maintenance will be conducted:

- Stop bars repainted as needed.
- Center lines and lane lines are repainted as needed.
- Cross walk lines are repainted as needed.

Within three (3) working days of Notification by the public or City staff of a hazardous condition, a City employee will inspect, take photographs and assess the situation. The Director of Engineering or his designate will be notified of the condition and will take mitigating action. Weather permitting the mitigating action, will be carried out as soon as staff and equipment are readily available, or as soon as practicable.

Rationale:

The City of White Rock wishes to demonstrate that balanced against the nature and quality of the risk involved, the City of White Rock’s system of Centre Lines, Lane Lines, Crosswalks and Stop Bars inspections / maintenance is reasonable in light of all circumstances including budgetary limits, available personnel and equipment and the criteria of wanting to meet the standard duty of care.
